PROFILE

I am a dedicated software developer with 2+ year of hands-on experience in building robust, dynamic web applications using Core PHP, Codelgniter, and Laravel frameworks. My expertise lies in backend development, database design, and API integrations, with a strong focus on creating efficient, scalable systems.

WORK EXPERIENCE

Eiglou Software House

AUG 2024 - JAN 2024

Full Stack Developer

- Develop and maintain web applications using PHP, Codelgniter, and Laravel.
- Work on both backend and frontend, integrating dynamic content with clean user interfaces.
- Implement API integrations, ensure database management, and troubleshoot performance issues.
- Collaborate with cross-functional teams to deliver scalable, secure, and optimized solutions.
- Handled payment integrations using platforms like PayPal and Stripe
- Conduct code reviews and mentoring junior developers.

Haddock Soft

MARCH 2023 - JUL 2024

BackEnd Developer

- Developed and maintained web applications using PHP and Codelgniter.
- Designed and optimized databases for efficient performance.
- Built and integrated RESTful APIs for seamless data exchange.
- Ensured security and scalability of back-end systems.
- Collaborated with front-end teams for smooth functionality.
