PROFILE SUMMARY

Full Stack Web Developer with 3+ years of hands-on experience in PHP (Laravel, CodeIgniter) building scalable, production-grade web applications. Proficient in RESTful API design, MySQL, and responsive frontends using Bootstrap, Tailwind, and JavaScript/Vue.js. Currently developing an AI-powered SaaS platform and working within the GoHighLevel (GHL) CRM ecosystem using AI-assisted (Vibe Coding) development workflows. Passionate about clean architecture, modern UI/UX, and real-world deployment.

WORK EXPERIENCE

Full Stack Developer | Sohoon Technologies

MAR 2026 – PRESENT

- Working within the GoHighLevel (GHL) ecosystem — building and customizing CRM workflows, automation pipelines, and client management systems.
- Developing features using Vibe Coding (AI-assisted development) to accelerate delivery and improve code quality.
- Integrating third-party APIs and automation triggers to streamline business operations for clients.
- Collaborating on GHL sub-account setups, funnel builds, and custom snapshot configurations.

Full Stack Developer | Eiglou Software House

Aug 2024 - FEB 2026

- Built an AI-powered SaaS platform with a GPT toolbox (AI Writer, Blog Generator, Code Assistant, Frontend Generator) and multi-role user management.
- Developed core business modules including Clients, Invoices, Tasks, and Analytics dashboards.
- Built and maintained RSLuxuryProperty.com with dynamic property filtering, city-wise search, SEO-optimized pages, and a custom admin dashboard.
- Developed a DPF cleaning service website with SEO landing pages and a lead generation system.
- Maintained full-stack web applications using PHP, Laravel, and CodeIgniter across backend and frontend.
- Integrated RESTful APIs, managed MySQL databases, and resolved performance bottlenecks in production.
- Handled PayPal and Stripe payment gateway integrations with secure checkout flows.
- Worked across the full stack — backend logic, frontend UI, and database schema design.

Internship

- Gained hands-on experience in PHP and CodeIgniter for building dynamic websites.
- Designed and optimized relational databases for efficient data retrieval.
- Built and integrated RESTful APIs; collaborated on real-world team projects.

TECHNICAL SKILLS

Backend: PHP, Laravel, CodeIgniter, RESTful APIs, MySQL
Frontend: JavaScript, VueJs, jQuery, Ajax, Bootstrap, Tailwind CSS, HTML/CSS
CRM & Automation: GoHighLevel (GHL), CRM Workflows, Funnel Builder, AI-Assisted Dev (Vibe Coding)
AI & Integrations: GPT API Integration, AI SaaS Development, PayPal, Stripe
Other: Git, cPanel Deployment, Hostinger Deployment, UI/UX Design, SEO Optimization, Web Performance Tuning

PROJECTS

nuvokai.com — AI-powered SaaS platform with multi-role GPT toolbox.
rsluxuryproperty.com — Real estate listing platform with dynamic search & admin CRM.
mekzglow.com — a skin care site with personalized product recommendations.
